

2nd All Africa Horticulture Congress

“Horticulture for Humanity”

15-20 January 2012, Skukuza, South Africa

The 2nd All Africa Horticulture Congress will be held at Skukuza, South Africa, within the world famous Kruger National Park. The recently completed Skukuza conference centre has been designed to blend with the existing safari theme, while still maintaining a high level of comfort, complimented by up-to-date equipment and amenities. The Congress will be hosted by the Southern African Society for Horticultural Sciences (SASHS). It aims to bring together scientists involved in diverse horticultural endeavours in Africa and to provide a platform that will encourage a spirit of communication, collaboration and sharing of knowledge and expertise for the benefit of our Continent and its people.

PROGRAMME

The Congress Programme will include a plenary session each morning, with presentations by selected Keynote Speakers. Each plenary session will be followed by Oral and Poster sessions. Technical Tours will also be available.

Session themes could include, but are not limited to:

- Food security
- Biotechnology
- Breeding and genetics
- Indigenous African Crops
- Floriculture and Ornamentals
- Medicinal and Aromatic Plants
- Plant nutrition and water relations
- Processing and value-adding – horticultural crops
- Investment models - opportunities & challenges
- Rural Development and Capacity Building
- Orchard & Plantation Management
- Pest and Disease Management
- Plant, fruit and crop physiology
- Post-harvest technology
- Peri-urban agriculture
- Propagation
- Vegetables

Time will be allocated in the programme to workshops. Please contact the Organisers if you would like to arrange a workshop. See our website for more details.
