Re: Support to application for work permit of Mr. Albert Fosso

Dear Mr. Nandago,

Judea Harvest Namibia would like to support the 'application for the work permit' for Mr. Albert Fosso. As expert in Horticulture Mr. Fosso has assisted the Judea Harvest in implementing Vegetunnel Horticulture Gardens in Windhoek, Rehoboth and Okahandja. The beneficiaries of the projects are orphans, HIV orphans and poor and old people as part of a feeding program by Judea Harvest associates.

The objectives of the program are:

- To contribute to food security and income generating activities, for poor and vulnerable communities
- To build the horticulture capacity of the communities in Urban Horticulture and entrepreneurship

Judea Harvest Namibia would also like to use the expertise of Mr. Albert Fosso to set up a training center next year, in Okahandja, for Horticulture training in Namibia.

With the increasing population living in urban areas (38%), and with a high unemployment rate, food security and nutrition is going to be a big challenge for Namibia.
